Method Test Prep: <https://www.methodtestprep.com/>

Online program with lots of different formats including self-paced prep, subject-oriented prep, classes, and one-on-one tutoring. If you do well with an online format and are self-directed this may be a good option. 877-871-PREP ext. 13

Princeton Review: <https://www.princetonreview.com/locations/us/louisiana/baton-rouge-la#!Test-ACT>

Varied test prep formats including classes, online, and individual one on one tutoring available. 1-800-2REVIEW

Current Opportunities

Tulane Summer Pre-College Programs (STEM, Women's Leadership, Architecture, and more)

From a shortage in STEM professionals to cultivating health care leaders of the future to informing the next generation of talented historians, Tulane University understands that the world is facing some big challenges. In order to inspire the next generation to tackle these complexities, we are offering exceptional students an opportunity to participate in a Tulane Summer Program. Here, young minds can explore academic disciplines to imagine a future where they can make an impact. The university's pre-college summer programs, with both credit and enrichment options, have helped inspire thousands of students each year, giving them an opportunity to build their resumes and get a taste of college life within a safe environment. <https://summer.tulane.edu/pre-college>

NC State Pre-College Programs

North Carolina State University offers Pre-College Programs in a variety of academic disciplines – each aimed at helping students prepare for college while experiencing life at NC State. Pre-College Programs give students the opportunity to: Develop academic skills, conduct research, investigate careers, build a portfolio, experience college life, prepare for college enrollment. Disciplines include cultural education, design, engineering, leadership, math, science, technology, writing, and more.

LSU Residential Engineering Summer Camps

The LSU College of Engineering is proud to offer two residential engineering summer camps to qualified high school students. These programs give high school students the chance to explore, create, experiment, build, code, design, and compete in a variety of engineering and college preparatory activities. The camps are held every summer on LSU's Baton Rouge campus where college faculty and college students interact with attendees through a number of hands-on workshops and activities. The signature event at both camps is the week-long "Design Project Competition" in which students compete on teams to design, build, and present a project.. <http://www.lsu.edu/eng/future/summer-camps/>

William & Mary Pre College Summer Program in Early American History

The National Institute of American History and Democracy (NIAHD) is a partnership between the College of William and Mary and the Colonial Williamsburg Foundation. It is dedicated to the study of American History, Public History, Material Culture, and Museum Studies. Students take NIAHD programs as part of their preparation for careers in teaching, museums, and other aspects of history and public history. The Institute offers high school juniors and senior a 3 week academic history course with college credit. Courses are taught "on site" at the abundant museums and historic places in eastern Virginia. <https://www.wm.edu/as/niahd/>

Texas A&M Galveston – Talented & Gifted Research Programs and Sea Camps

Sea Camp was founded in 1986 and provides residential, hands-on marine adventures for 10-18 year olds during the summer months. Talented & Gifted (TAG) camps are part of Sea Camp and are for high ability students Ages 14-18. TAG programs include opportunities in marine research, veterinary medicine, and pre-med tracks. <http://www.tamug.edu/seacamp/SeaCampPrograms/index.html>

Mississippi State University – Design Discovery

Design Discovery is an eight-day summer camp intended to answer many of the questions about architecture and design as fields of study and as professions. The major goal of the workshop is to simulate the information, skill, and intensity required for an architectural education and to give clear insight into the practice of architecture. With this experience, it will be possible for the participants to make an informed career decision about architecture and its related disciplines. The program is open to high school students ages 16 or above. <http://www.caad.msstate.edu/sarc/designdiscovery.php>
